

IETF Hackathon

Path Tracing VPP

IETF 117

22-23 July 2023

San Francisco, California

Hackathon Plan

- Bringing Path Tracing to the main-line of FD.io Vector Packet Processing (VPP)
 - draft-filsfils-spring-path-tracing
 - Implement source node behavior (incl. API)
 - Improve midpoint processing
 - End-to-end testing

What got done

Complete path tracing pipeline from generator to timeseries database

What we learned

- VPP can be tricky
 - Especially load balancing

Wrap Up
